

Project ShardeumAI (SDAI)

A Portal to Metaverse, Gaming, Ads & Promo, and NFT

MISSION STATEMENT

The goal of ShardeumAI is to help content creators to monetize their creations independent of which social media platform or other sources they use to share and promote their content with their fans.

Five Years Experience

We have an experienced team with more than 5 years of combined experience in social media, smart contract development, NFT eco-system and more.

Holders & Holding

Holders are invited to participate in a monthly airdrop to receive BNB.

Staking Process (will be developed soon)

We have allocated 15 million ShardeumAI for our staking solution to be distributed between several staking options. Our first staking contract has been passed the audited with flying colors.

ShardeumAI Eco-System

We are building a decentralized ecosystem for content creators based on the following:

NFT

The non-Fungible tokens are an inseparable part of the future of interactions between content creators and their fans. ShardeumAI will be providing smart contracts for minting NFT, a gallery for presenting the NFTs, and a marketplace for buying and selling the NFT tokens.

Ads & Promo

Advertising and promoting specific content in social media have a variety of restrictions and it is not the most effective way for content creators to find and attract new audiences. The SDAI innovative solution will allow content creators to create a custom campaign and incentivize exactly what they need.

Gaming

Providing engaging content is important. To this end, ShardeumAI project aims to leverage Games to create a fun user experience when our users engage with our products.

FUNDS ALLOCATION

Marketing %30

Community %30

Roadmap Our Journey Ahead

Phase I: Launch and Community Building

Website and Social Media Launch, Presale Event

Phase II: Listing and Partnership

Listing on CoinmarketCap, Coingecko

Phase III: ShardeumAI Ecosystem Expansion

Introduction of Staking and Governance

NFT Integration

Cross-Chain Compatibility

Phase IV: Global Adoption

Outreach to New Markets

Continued Development and Innovation

Adding ETH Contract Address

USE CASE DEVELOPMENT

May 2023

Our use case was developed in several workshops in collaboration content creators on multiple social media platforms (Twitter, YouTube, Telegram, Discord, Skype, GitHub, Reddit and Webmail).

PROOF OF CONCEPT DEVELOPMENT

June 2023

After evaluating several L1, we chose Binance Smart Chain (BSC) as the platform for launching our solution due to its low transaction fees. We evaluated different web3 technology and identified the building blocks needed to build our solution.

TEAM ONBOARDING

July 2023

We onboarded smart contract developer and two web3 developers to work on productification of our proof of concept.

TOKEN LAUNCH

August 2023

We launched our token on September, 3rd. The token has a fixed supply of 100 million SDAI token and no more token can ever be minted.

STAKING CONTRACT

December 2023

We are working on variety of staking solutions. Our classic staking smart contract is to be launched on early January, 2024; more news will be updated.

NFT GALLERY & MARKET

C. September 2024

We are going to launch our NFT gallery and marketplace where we will be promoting talented artists.

ONBOARDING CONTENT CREATORS

C. October 2024

After launching our NFT gallery, we will be expanding quickly by onboarding content creators. We will leverage the network effect of social media combined with our reward program to onboard content creators and fans into our solution.

CONTENT PROMOTION AND ADVERTISING

We aim to provide one stop shop for content creators to expand their network and influence by promoting their channels or contents by leveraging SDAI community. We will publish a separate white paper on our plans later in Q1.

Ethereum Platform

December 2024

We aim to launch ShardeumAI (SDAI) in ETH platform.

Join us on this exciting adventure as we shape the future of DeFi and AI. ShardeumAI is not just a coin; it's a movement, and we want you to be a part of it!
